- B. Stay of Execution: Stay of Execution: Instead of issuing a warrant, the court may order the same to be stayed upon motion of the defendant, and upon his or her entering into

an undertaking to the City in such sum and with such surety as the court may direct, conditioned either that the defendant will discontinue said nuisance or condition, or that within a time limited by the court, and not exceeding six (6) months, he or she will cause the same to be abated and removed, as either is directed by the court; and upon failure to perform the condition of his undertaking, the same shall be forfeited, and the court, upon being satisfied of such default, may order such warrant forthwith to issue, and action may be brought on such undertaking.

- C. Expense, How Collected: The expense of abating a nuisance or condition by virtue of a warrant can be collected by the officer in the same manner as damages and costs are collected on execution, except that the materials of any buildings, fences, or other things that may be removed as a nuisance or condition may be first levied upon and sold by the officer, and if any proceeds remain after satisfying the expense and removal, such balance must be paid by the officer to the defendant, or to the owner of the property levied upon; and if said proceeds are not sufficient to pay such expenses the officer must collect the remainder.
